DEPARTMENT TASK FORCE CHARTER

#9

INFORMATION RESOURCES ADVISORY COMMITTEE

AUTHORIZED BY: ____________________________________________________________

THOMAS P. EICHLER
Secretary

DATE: ________________________________________________________________

1. OBJECTIVE

The Information Resource Advisory Committee is hereby appointed to:

- Develop and review policies, plans, and priorities related to information resources; Educate management on the value of information systems resources; Ensure that the Department's information resources needs are identified, goals are set to meet those needs, and goals are achieved; Monitor the effectiveness of the Department's information resources.
- To assure appropriate access to information for planning, analysis and management, the Committee is responsible for developing the security and confidentiality policies of the Department, supporting production reports and analyses, and mediating information access and sharing.

2. POLICY DEVELOPMENT

- Develop and monitor procedures that ensure the quality of information contained in FACTS and other electronic databases.
- Review Department policy around confidentiality of data.
- Develop Departmental policy and Divisional procedures for data archiving and records retention.
- Establish procedures for the ongoing review of electronic data sets to maximize data sharing and integration and identify and recommend ways to eliminate unnecessary duplication.

3. SUPPORT PRODUCTION REPORTS AND ANALYSES

- Establish a process for review and approval of tools for analysis of data.
- Evaluate Departmental needs for information from all electronic data sources.
- Develop criteria for prioritizing Departmental analyses and reports.
- Identify and advocate for sufficient resources to support the production of reports and analyses

4. INFORMATION ACCESS

- Establish and oversee a directory of reference tools to facilitate access to and use of data.
- Evaluate and support external requests for information and review responses for release.

5. MEDIATE INFORMATION SHARING

- Establish forums (manual and electronic) to facilitate information sharing within the Department.
• Provide briefings to Department management on the availability and use of Department information and information about technologies.
