

The

Method of

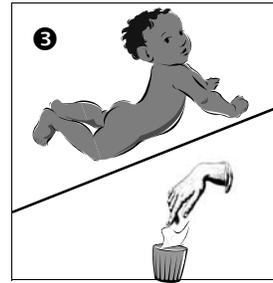

# CHANGING DIAPERS

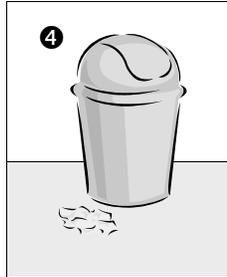

**1**  
Check to be sure supplies you need are ready.  
  
Put on a new pair of disposable gloves.

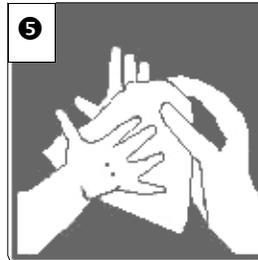

**2**  
Lay the child on the clean and disinfected diapering surface.  
  
Handle the child only with gloved hands.

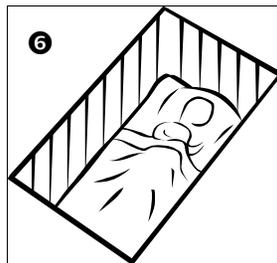

**3**  
Remove soiled diaper and clothing.  
  
Clean the child on the body wherever necessary.

**4**  
Put disposable diapers in covered, plastic lined receptacle.  
  
Put soiled clothing and cloth diapers in plastic bag to be sent home or to a laundering service.  
  
**Do not empty or rinse soiled clothing and cloth diapers.**

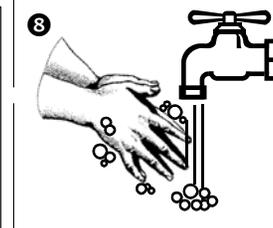

**5**  
Wash infants hands with soap and running water or with soapy water from a spray bottle. Rinse the infants hands.  
  
Assist toddlers in washing their hands with soap and running water.

**6**  
Return the child to a clean crib or to play.

**7**  
Clean the diapering surface to remove visible soils.  
  
Disinfect diapering surface and all other contaminated surfaces.

**8**  
Staff shall remove and dispose of gloves and thoroughly wash their hands with soap and running water.
