Description: This adoption program focuses on the placement of children waiting in foster care in Delaware and throughout the United States with permanent families. The children placed by ABC may have a physical disability, be cognitively delayed, or experiencing emotional issues. They may have been exposed prenatally to drugs and alcohol and could be struggling with attachment issues. Many of the children placed through this agency are older or members of a sibling group. A Better Chance for Our Children places many children who are members minority groups. The agency, formerly known as Upper Bay Counseling Services and Support, has a strength based, team focused approach to working with families which the agency has been committed to for over 25 years. ABC believes in a very intensive pre-placement educational process in which families are encouraged to consider their motivation to adopt together with their ability to deal with experiences they may encounter as they become a family through adoption. Support is provided to families after placement and after finalization for as long as families need it.

This agency is a contracted agency with the Delaware Division of Family Services and, as such, provides services to families interested or involved in adopting children from the public child welfare system.
